February 5 **The Feminine Aspect of Spirituality** Evergreen Women

Music: Gayle Sells, piano; The "Goddess Chant" Choir, conducted by Pamela Gerke

What is the "feminine" aspect of spirituality? Who is the Goddess? How can men and women alike know and embrace "feminine" energy in our spiritual quests and daily practice? A powerful coterie of Women of the Evergreen Community have come together to co-create a beautiful service to bring greater understanding of the spiritual energies associated with the feminine. A 36-voice women's choir will be singing songs from the "Goddess Chant" ritual concert upcoming in February.
